"For me the guided journey (still thinking about it and being surprised what and how it happened) with you was a big release...a release from a lot of pain, responsibility, struggle, uncertainty, and helplessness. I felt completely safe, and I felt your great support being there with me and standing strong in all that pain. Without your support, I wouldn't have been able to release and take this great chance in letting go but also face a new possibility in life and take the chance to change something very big for me. It was a journey that changed my life and opened so many new possibilities for me which I am taking. You have a great gift that you are able to be there fully with the person needing support in that very opened moment."

"Lisa is a loving, authentic and gifted intuitive who joyfully dances with Spirit in her own life. Her journey has been a winding road through which she has honored her inner visionary artist and a call to help bring forth healing on this planet at this time. She has a very sweet and deep connection with Mother Earth which comes out in her art as well as her quiet but very present way with people. "
